

A STATEMENT FROM HOMER HILL FARM SHOP ON COVID-19

In the light of the current public health emergency created by the spread of Covid-19, we would like to reassure customers that we are monitoring the situation carefully and taking steps to minimise the risk of disruption to our customers as well as protecting the well being of our employees.

The nature of the risks presented by the current outbreak are like those of a flu pandemic.

We have focused on enhanced protection for our employees: increasing internal awareness of possible threats posed by the outbreak: the maintenance of strict internal hygiene and health surveillance to try and minimise and avoid disruption.

Specific measures include:

An increased level of health surveillance across our business

Additional sanitisation of surfaces in all areas

Close monitoring of the health of the workforce

An up weighted programme of internal communication regarding health protection advice and hygiene precautions

We believe these procedures will help us to prevent disruption or interruption to normal customer service. We continue to actively monitor the situation and track advice from the Government and the relevant health authorities.
